

Financial Support Scholarship Information for Applications

Financial Support Scholarship Applications are accepted for a limited number of students who have applied for enrolment at St Paul's Grammar School. Financial Support Scholarships may be means tested and available to families who complete a summary of their financial affairs and/or provide reasons for the application for assistance. However, the predominant assessment criteria shall be based on reasons provided. We understand the sensitivities involved in providing personal and financial information to the school. The information divulged is treated with strict confidence.

Following an initial assessment of the Financial Support Scholarship Application, the school will contact the family to arrange a time for an interview with the Principal and either the Director of Business and Finance or Board Chair. This interview is a vital component of the process, as it is the school's way of gathering the information necessary in properly understanding your unique set of family circumstances. It allows the school to make sense of the Application Form, your circumstances, and your financial position. It also allows the school to consider and explore the nature and level of support the school may be able to provide.

Financial Support Scholarship Applications are available for prospective students who have applied for enrolment at St Paul's Grammar School, and:

- Whose family situation demonstrates a need for special consideration due to pastoral or other circumstances; or
- Prospective students who have applied to St Paul's for enrolment in Year 11, which continue to the completion of Year 12, subject to satisfactory student performance.

Where students are already enrolled at St Paul's, financial support may be available through a Bursary Application. This is available from the Office of Business and Finance.
